

## Business analyst

Do you believe finance can be something more meaningful than just a bunch of greedy wolves fooling around with others' money until a crisis happens? Would you like to build a world where everyone can access a user-friendly tool to grow their money fairly and according to their needs? Do you have what it takes for that? Great, because Gambit is currently recruiting an Analyst for their product!

As a Business Analyst, you actively take part in the definition of the product and its implementation for our clients. You will join a multi-disciplinary team and will participate in the specification of functionalities based on the client requirements and technical constraints. You will have a big role to play in the product roadmap definition for one of our biggest clients (a major French bank), looking to further develop their offering around sustainable investments. You will be their reference for all questions and subjects related to sustainable investments and will be regarded as such internally as well with other business analysts referring to you for requirements related to this topic.

### Tasks

- Actively lead and participate in workshops to create new business capabilities around sustainable investment,
- Assist our client (a major French bank) in defining these new functionalities around sustainable investment,
- Collect and understand the clients' and the market's needs,
- Understand how these needs could be implemented,
- Find solutions to meet clients' requirements using new or existing products in collaboration with our architects and senior experts,
- In collaboration with other business and functional analysts, translate these requirements into functional specifications that can be easily used by developers and QA officers,
- Take part and/or take the lead on the evolutions of the client's implementation and their roadmap,
- Reactivity and adaptability will be part of your daily challenges, as the Fintech environment is always on the move. You will also be in direct contact with clients and will have the opportunity to travel to meet clients and prospects.

### Required Knowledge, Skills and Abilities

### Education and Experience

- Bachelor or Master's degree, preferably a business degree with a strong focus on the banking industry, sustainable investment, computer science or information technology, or a similar degree
- Strong affinity or experience in sustainable investment, willingness to become a specialist in this domain.
- 5 years of experience in workshop facilitation in the context of software conception

- Previous experience in the banking sector and specifically in investment advisory activities is a plus

## Hard Skills

- Strong analytical skills, with the ability to quickly understand and resolve issues, in the context of IT-oriented projects
- Strong knowledge and experience with communication tools (Powerpoint, Miro, other)
- Strong experience in workshop facilitation
- Proven affinities with sustainable investment topics
- Proven affinities with digital applications and/or information technologies
- Basic knowledge of project management
- Experience with business process modeling techniques such as BPMN is a plus
- Basic knowledge in finance is a plus
- Experience in SQL is a plus

## Soft Skills

- Team-player and team-oriented attitude
- Client oriented mindset
- Stress resilient
- Open to travel for periodic workshops or missions
- Solution-driven
- Whatever it takes!
- Resourceful even in uncomfortable situations

## Communication

- Fluent in FR and EN (NL is a plus)
- Excellent communication skills written and oral

## Travel

- Willingness to travel to Paris about once a month for 2-3 days to lead and attend workshops on the client's premise

## Work location

36 Rue de Mulhouse, 4020 Liège

Gambit has offices in Brussels, Luxembourg and Paris.

**Gambit has a half time (or less) work-from-home policy**
