

Do you believe finance can be something more meaningful than just a bunch of greedy wolves fooling around with others' money until a crisis happens?

Would you like to build a world where everyone can access a user-friendly tool to grow their money fairly and according to their needs?

Do you have what it takes for that?

Great, because Gambit is currently recruiting a **Solution Integrator / DevOps!**

The Solution Integrator will be part of the IT Software Delivery Team responsible for the definition and implementation of all integration services between Gambit and the integrated client.

The position resides at the intersection between a Solution Architect, a Business Analyst, and a Project Manager, as it requires skills in all these disciplines. The Solution Integrator's main role is to act as a translator between all different roles within the integration project.

Passionate about the world of integration and its challenges?

This job is for you!
