

## Solution Architect

Do you believe **finance can be something more meaningful than just a bunch of greedy wolves** fooling around with others' money until a crisis happens?

Would you like to **build a world where everyone** can access a user-friendly tool to **grow their money fairly and according to their needs**?

**Do you have what it takes for that?**

Great, because we are currently recruiting **a solution architect as part of our product team!**

Gambit is currently at a turning point in its technological development, and is investing in its product, both from a technical and a functional point of view.

In our ambition to become a market leader in investment advisory technology, by delivering a "software as a service" for financial institutions in the cloud, Gambit is looking for a solution architect.

**As solution architect you will take a leading role in the specification and roll out of Gambit's product roadmap. You will join a multi-disciplinary team and will oversee designing the architecture of our API-based platform.**

### Responsibilities

- Build and maintain– in close collaboration with the Lead Architect – a solid end-to-end architecture of the Gambit Platform.
- Gambit being a software vendor, a particular focus will be put on the application architecture, whilst taking into consideration the technological choices made in our product.
- Collaborate with the Product Management to determine application needs and determine the appropriate applicative architecture (modular cut-out) given the business needs and non-functional requirements (NFR).
- Support the Program/Product team, to formalize and model the Strategic- and Business layer of the architecture (capabilities, business function, business processes, value streams, etc.).
- Design conceptual data models, and hand-over towards the business analysts for further specification, including support during creation of the logical data model.

- Determine a roll-out plan of the architectural blueprint per development squad.
- Support the development squads in the adoption- and eventual modification- of the architecture.
- Ensure the delivered solution respects the application architecture
- Reactivity and adaptability will be part of your daily challenges, as the Fintech environment is always on the move.

## What we expect of you

- Ideally, you have a first professional experience as a Solutions Architect, or you have solid experience as a Software Architect and are now ready to take the next step in your career as a Solutions Architect.
- Strong understanding of microservices oriented architecture;
- Team-player and team-oriented attitude;
- Strong analytical skills, with the ability to quickly understand and resolve issues, in the context of IT-oriented projects;
- Creative and strategic thinking;
- Leader mentality;
- Stress resilient;
- Organizational and time management skills;
- Resourceful even in uncomfortable situation.

## What makes you stand out

- Proficient working experience in the ArchiMate modelling language, preferably within Sparx Enterprise Architect;
- Proficient working experience with API-based micro-service architecture and preferably DDD;
- Experience with relational database management system (SQL Server, PostgreSQL), and graph database (GraphQL);
- Understanding of SAFe/Agile/Scrum methodologies.
- Experience in a product-oriented environment, preferably software vendor.
- Knowledge of banking and finance topics;
- Knowledge of business process modeling techniques such as BPMN;

## What you can expect of us

- **Working in an inspiring Fintech spirit:** A dedicated team awaits you to join them in challenging the established rules and creating a new financial environment that would be simpler and more transparent for everybody.
- **Fast personal developments:** As a Fintech, everybody on board has a crucial role to play and will be quickly granted with responsibilities. This is

a great opportunity for you to challenge your skills and talents without having to wait several years to get to a position with decisional power.

- **Collaboration with young and dynamic talents:** Who better than millennials could build solutions for millennials (or rather anyone with the same progressive mindset)? That's why we have chosen to trust young talents who are craving for innovation, to build products they would like to use.
- **A people-oriented culture:** At Gambit, we will not ask you to wear a tie nor grey suits. If you want to listen to music, it's fine! We will just ask you to be passionate about your job, and to love sharing your expertise. In addition, when things get a bit heated, enjoy our Fridays' Happy Hours with a foosball and great (Belgian!) beers.

## Work location

HQ: 36 Rue de Mulhouse, 4020 Liège

Offices in Brussels, Luxembourg and Paris.

**Gambit has a half time (or less) work-from-home policy**
