

Full-stack developer (javascript)

If you're a front-end developer looking to extend your expertise as a full-stack developer, the job is also for you!

We're looking for a motivated full-stack developer to join us in building world-class customer-focused software. In this role, you will be a technical influencer in our front-end development team who needs to grant technical testing knowledge.

You'll join a cross-functional team composed of Business Analysts, Developers and Project Managers. Your profile will be technically oriented with a passion for testing.

Working as a Full-Stack Developer

This person will be assigned to a squad that's responsible for the development of existing customer products or internal R&D investment; implementing/improving features, technical improvements, modernize application architecture and so on. Each squad will also be responsible for the maintenance of what they developed: 85% development / 15% maintenance.

Depending on your progress and ability in mastering Gambit's technical architecture and business, you will gain autonomy and responsibility in the analysis and design of new features.

- Implementing the frontend components of the applications, in accordance with the specifications provided by the Business Analysts
- Participating in the estimation of our new frontend and backend-for-frontend (BFF) developments.
- Participating in the implementation of the visual design of the applications, based on the wireframes and mockups provided by the UX designers et graphic designers
- Working in close collaboration with the business analysts, UX designers, backend developers, and testers
- Participating in our agile software development process
- Contributing to technical meetings, and participating in code reviews

ABOUT GAMBIT

Gambit Financial Solutions is a European leading expert in Investment Advisory, Risk Management and Portfolio Optimization. It was created as a spin-off of HEC-Liège (Management School of the University of Liège).

While keeping strong ties with HEC as the motor of its R&D efforts, Gambit has evolved into a full-fledge commercial company. It has developed an international client base and implemented its solutions in various recognized financial institutions in Belgium, Luxembourg, France, Switzerland and beyond. Each of those solutions was built on strong expertise in IT and financial knowledge, and with client-centricity as a constant redline.

What do we expect from you?

- 2+ years of experience as a full-stack or frontend developer with proven experience with ReactJS
- Experience in web development using the latest versions of JavaScript, HTML & CSS
- Working knowledge of responsive design.
- Good understanding of REST web services.
- Understanding of browser security (i.e. CORS, cookies)
- Rigorous with quality in mind
- Team spirit while autonomous in work
- Motivated and flexible
- Focused on solution is very important
- Ambitious and patient
- French and English (min. B1) communication skills

What makes you stand out?

Below a few nice-to-have elements that would make your application exceptional.

- Experience in Node.js or Express.js
- Experience in TypeScript
- Experience in software engineering specializing in medium to large scale software development projects.
- Capacity to contribute to best practices and provide technical solutions.
- Working knowledge of code bundling, task running and package management.
- Understanding of JavaScript-based E2E testing with frameworks such as Cypress / Playwright or Selenium
- Exposure to Agile / SCRUM methodology.
- Experience with CSS pre-processor technologies (SASS).
- Experience with front-end state management solutions (Redux).

Offering

- A full-time contract with a competitive remuneration package with fringe benefits (e.g., car, fuel card, bonuses, insurances, phone subscriptions, meal vouchers).
- A dynamic SME work environment with enthusiastic and talented colleagues.
- The opportunity to work on your own initiative in a fast-growing SME in a dynamic field (FinTech)
- A varied working environment with a lot of room to be innovative and creative.
- Fantastic career development opportunities as we keep growing.
- Flexible working environment with home-working policy (50%)
- Extra benefits such as a fitness room access

Work location

- HQ: 36 Rue de Mulhouse, 4020 Liège
